

The Sir Charles Gairdner Hospital Interventional Bronchoscopy Unit Presents

Interventional Bronchoscopy Masterclass 2024

Linear & Radial EBUS, Rigid Bronchoscopy & Advanced Interventional Techniques

Suitable for respiratory medicine consultants and trainees

Dates

Monday 5 August to Wednesday 7 August 2024

Venue

Clinical Training & Evaluation Centre (CTEC)
The University of Western Australia, Perth

Course Highlights

- Expert international and national faculty.
- Premier surgical skills training and simulation facility at CTEC.
- Combination of lectures, group discussions and hands-on training on all three days.
- Hands-on training on cadavers, animal and high-fidelity models and virtual reality simulators.
- Small group hands-on training (4:1 participant-trainer ratio) for a focused learning experience.

Course Structure

- Linear and Radial EBUS (days 1-2)
- Rigid bronchoscopy and advanced interventional bronchoscopy techniques (days 2-3)

Interventional Bronchoscopy Masterclass 2024

Linear & Radial EBUS, Rigid Bronchoscopy & Advanced Interventional Techniques

International Faculty

Professor Felix Herth, Thoraxklinik Heidelberg,
Germany

Prof Felix Herth

Course Convenor

Associate Professor Rajesh Thomas

Masterclass Overview and Objectives

This course is aimed at interventional bronchoscopists who wish to learn about the principles and practices of EBUS and advanced interventional bronchoscopy.

Assoc Prof Rajesh Thomas

The workshop aims to teach and improve operator skills and confidence in a simulated environment using a tailored combination of lectures, group discussions and hands-on training on various simulation models.

Days 1 and 2 will cover all aspects of linear and radial EBUS bronchoscopy including indications, contraindications and clinical applications and will be combined with extensive hands-on training.

Days 2 and 3 will cover important clinical applications and hands-on training in advanced interventional bronchoscopic techniques including rigid bronchoscopy, hot and cold ablative therapy, airway stenting, cryo-lung biopsy, bronchoscopic lung volume reduction and bronchial thermoplasty.

Interventional Bronchoscopy Masterclass 2024

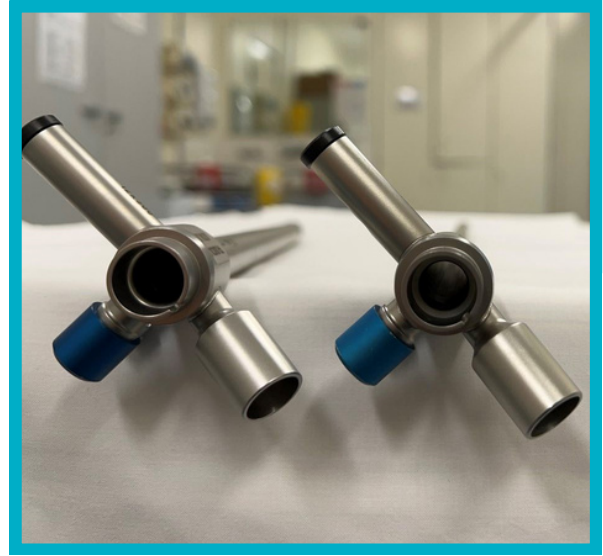

Linear & Radial EBUS, Rigid Bronchoscopy & Advanced Interventional Techniques

Registrations

- Early Bird Fees: AUD \$3,200
(before 17 May 2024)
- Full Fees: AUD \$3,500
(after 17 May 2024)

Includes:

- Course dinner (first night)
- Morning tea, lunch and afternoon tea on each day
- Access to the full program including all pre-course reading material and didactics

Registration for the course will be accepted on full payment and on a first-come, first-served basis. A detailed course program will be sent closer to the workshop.

Registrations Now Open
